Re: United States Plant Patent Application
Peach Tree "Klamath"
Application Number 10/734,898, Filing Date 12/15/03, Grp Art Unit 1661

Dear Susan B. McCormick Ewoldt,

The following revision to the patent application with the page and line is indicated below.

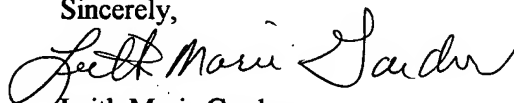

A. Page 3, after "being canned." on line 6, insert the following:

The new variety differs from its maternal parent (8EB258) by having firmer flesh and maturing approximately 14 days earlier. The new variety differs from its paternal parent (40GC250), which is a nectarine by being a peach.

We will under take to do our utmost to revise our format to comply with the necessary requirements you have indicated that are necessary for this plant patent and our future stone fruit patents.

We regret any inconvenience these errors have caused you.

Sincerely,

Leith Marie Gardner
